

Inventory::findBookByISBN

Inventory::isBookAvailable

LibraryHash::ISBNToHash

```
graph LR; A[Inventory::findBookByISBN] --> C[LibraryHash::ISBNToHash]; B[Inventory::isBookAvailable] --> C;
```

The diagram illustrates two calls to the `LibraryHash::ISBNToHash` method. On the left, two boxes represent the calling methods: `Inventory::findBookByISBN` (top) and `Inventory::isBookAvailable` (bottom). On the right, a shaded box represents the target method: `LibraryHash::ISBNToHash`. Two blue arrows point from the right side of each left box to the left side of the right box, indicating the flow of the function calls.
